Projects and Achievements:

Banking Website with Anti-fraud Feature

- Developed a secure banking website with anti-fraud functionality that reduced fraud incidents by over 90%, based on research with 50 individuals.
- Implemented robust user authentication and employed JSON database for efficient data management.

IT Ticket Tooling Website

- Designed and built an IT ticketing platform that improved efficiency and response times by streamlining ticket submission and management.
- Utilized a JSON database for seamless ticket management.

Aegis Authentication (Ongoing Project)

- Currently developing Aegis Authentication aimed at helping secure user accounts with reminders and secure password creation.

Portfolio Website

- Designed and developed a personal portfolio website, attracting 361 unique visitors and 1006 total requests in a 30-day period according to Cloudflare statistics.
- Created captivating advertisements, logos, and posters for various projects.

Industry Networking

- Established connections with 80+ professionals in the field through active communication, contributing to valuable learning experiences.

Skills:

Technical Skills:

- HTML, CSS, Python, JavaScript, Website Design, Software Proficiency, Computer/Software Repairing.

Soft Skills:

- **Self-Motivated:** Took the initiative to learn web development, design, and security concepts on my own, leading to the creation of projects like the secure banking website with anti-fraud features.
- **Adaptability:** Eager to learn and stay updated with new technologies, as shown by the ongoing project "Aegis Authentication."
- **Good Communicator:** Developed strong communication skills through personal achievements and networking efforts.
- **Creative:** Developed eye-catching visuals that attracted 361 unique visitors in a 30-day period, according to Cloudflare statistics.
- **Critical Thinker:** Completion of extensive learning modules for the CompTIA A+ certification demonstrates capacity for critical thinking and analytical problem-solving.
- **Good Teacher:** Effectively communicates complex subjects across a wide variety of demographics.
- **Customer Service:** Experienced in customer service, ensuring accurate order processing and effective communication for exceptional experiences.
